OF  
MODEL HORSE STUFF

From saddles to harnesses, fine customized model horses to factory collectibles, Rio Rondo offers the Model Horse Hobbyist a wide variety of crafting options. Model Horse Showing is a thriving activity, whereby model horses are set up in realistic scenes with true-to-life miniature tack and props. Shows abound nation-wide and year-round, with room for beginners and youth along with experienced, long-time exhibitors. Supplying tack to hobbyists for competitive showing is how Rio Rondo got its start, and now we provide supplies to other artisans from coast to coast and around the world, since 1983.

Whether you plan to show miniatures, simply display them at home, or create them for the sheer pleasure of the craft, Rio Rondo has the most unique selection of horse-related miniature supplies. Most of the specialty items found in this catalog are Rio Rondo exclusives—designed by and produced for Rio Rondo—items you simply cannot find anywhere else!

So . . . take a few moments to browse through our latest catalog, and enjoy! You're sure to end up with many new ideas for your miniature projects, and we'd love having you as a customer in the near future!

### Size & Scale . . .

**Traditional Scale (Trad or T)** includes Peter Stone™ and Breyer™ model horses of the larger size, as well as other brands and molds of similar dimensions.

**Classic Scale (Clas or C)** is approximately 1:12 (dollhouse) scale, and includes mid-sized plastic models and accommodates some ceramic brands such as Haagen-Renaker, and the Peter Stone™ Pony, CollectA® Deluxe, etc.

**"Bijoux" Scale (BJ)** is approximately 1:18 scale, and includes smaller model brands such as Schleich®, CollectA®, Safari Ltd.®, Breyer™ Paddock Pals/Little Bits, Peter Stone™ Pebbles and various resins. (*Around 4 1/2" at the eartips*)

**"Bitty Bijoux" Scale (BB)** is a range of small models 1:28—1:32 scales, and includes Breyer™ Stablemates and other similar sized brands and resins. (*Around 3 1/2" at the eartips*)

**1/6th Scale (1:6)** is equivalent to "Action Figure" and "Fashion Doll" size, such as Marx Johnny West "Thunderbolt" models, and similar.

Please note that some items are interchangeable between scales, depending on what is needed to achieve the best overall "look" to your projects.

### Color Choices

Please specify the color of items you order where applicable. Many kits containing strap goods such as bridles and halters may come in several colors. The basic color choice key is:

**K=Black B=Brown R=Rust N=Natural W=White**

For metal items that come in silver or gold colors the key codes are:

**S=Silver Color G=Gold Color**

*Ordering Example: KH1t-b = Stock Halter Kit/Brown color B12s = B12 buckle in silver color*

If no color choice for items available in several colors is indicated on your order form, we will ship the most commonly requested color for that item.

### Units . . .

The "UNIT" column on your order form means how the item is packaged and sold—for example, "each", "set", "pack", "pair", "sheet", etc.

### Etched Items

If you are ordering etched items such as buckles, slotted rings or hardware sheet assortments, we strongly recommend that you cut the pieces out of the sheets with a fine pair of cutters, rather than bend them apart. Bending can warp or break tiny parts. Cut 1 or 2 sides of the 'frame' off of the sheet, then snip out the parts in strips, and cut the strips apart.

### Special Orders

Some items not shown or expressly offered in our catalog may be special ordered. If you have a need for something in particular, please inquire.

We try to keep the information and pricing in this catalog up to date, but sometimes things get ahead of us. Where there is a discrepancy, our online pricelist will take precedence:

<http://www.riorondo.com/info/pricelists/ppricelist.html>, downloadable at any time.

# CRAFTING TOOLS

www.riorondo.com/tools/

## PLIERS, CUTTERS & HEMOSTATS

### XURON™

#### MicroShear Flush Cutters

The best tool for cutting apart our etched hardware items. Cuts clean and close, leaving minimal extra finishing work.

TL723—\$13.50

### EUROTOOL® Slimline

#### Needle Nose Pliers

Features tiny tips with flat jaws for attaching jump rings, bending etched parts and wire work.

TL721—\$6.00

### EUROTOOL® Slimline

#### Round Nose Pliers

Ultra-small round tips to bend wire and etched parts. Craft your own tiny jump rings and buckles from wire that are smaller than 1/16".

TL722—\$6.00

### EUROTOOL®

#### Knotting Pliers

Our smallest-tipped needle-nose type pliers. Fine, slender jaws with a narrow profile. These pliers do not auto-spring open, so they can hold a part when you set them down.

TL724—\$8.00

### Hemostats

Hold items while the glue dries so you can move onto other steps. Straight-nose or Bent-nose to keep parts off your work surface. 5.5" handles.

Straight-Nose TL780—\$7.75  
Bent-Nose TL781—\$7.75

### PLASTISTATS

Affordable plastic hemostats that glue doesn't stick to—it just pops right off. Serrated jaws can be smoothed off or shaped with a knife and sandpaper.

TL782—\$1.50

## EXCEL HOBBY KNIVES

TL788

### TWEEZERS

Fine-tipped tweezers help you pick up small parts, crystals and beads, and push parts into place while gluing.

TL786—Straight—\$2.25

TL788—Curved—\$2.25

## Needle File Set

Set of 6 5.5" long needle files in various shapes to smooth off seams on pewter castings, etchings, resin, plastic and more.

TL472—\$9.00/set

## Bead Reamers

Enlarge holes in beads and etchings with just a twist or two with a diamond bead reamer. 1/8" shanks fit into a CSH18 handle or TL801 Pin Vise.

TL826

Micro .025 tip—\$2.50

TL830

Mini .030 tip—\$2.50

## PIN VISE

Use as a handle for a variety of tools: bead reamers, drill bits, even carbide scrapers. Can even hold a stick pin to make a mini awl. Comes with 2 double-ended collets store inside the handle.

TL801—\$7.75 ea.

## Sculpting Tool

We call this tool "Offset Tresser" as it is very useful for sculpting manes and tails, and each end is offset/turned from the other. Works on epoxy putty, clay and even tooling leather.

TL455—\$3.50 ea.

Resin ♦ Sculpey ♦ Fimo ♦ Plastic ♦ Epoxy Putty ♦ Bondo ♦ Wax ♦ Clay ♦ Ceramic Greenware ♦ Bisque ♦ Wood

# CARBIDE SCRAPERS

Remove Seams & Flash ♦ Add Fine Detailing ♦ Carve ♦ Etch ♦ Incise ♦ Alterations ♦ Hollowing ♦ Deburring

[www.riorondo.com/tools/scrapers.html](http://www.riorondo.com/tools/scrapers.html)

## As easy to use as a pencil!

Don't just sand off all the detail around the seams! Our Carbide Scrapers are the best hand tools you can get to help you clean and remove seams from a variety of materials while preserving (or even adding) detail to both cast copies and original works.

Sharp enough for very fine work, hard enough to carve epoxy putty and retain their edge for a very long time, yet most of the shapes are not prone to cutting skin.

## Single Scraper With Handle

The perfect starter tool—a CS01 Carbide Tip with a handle to get you started.

CS101 CS01 Tip & Handle \$21.00

## Upgrade Kit

Upgrade to the full set of scrapers from the CS101 Scraper & Handle, Kit includes the remaining 5 Carbide Tips and storage case.

CS601u CS02 thru CS06 tips & Case \$76.00

## Carbide Scraper Tips

*sold individually*

### CS01—Plain Round

Cuts along a single plane without affecting material behind it. Rounded tip can be used to scrape out excess material in larger depressions.

\$14.75

### CS02—Tapered Detail

Get into small, tight areas to clean seams and add detail where seams have been removed. Also useful to clear filigree areas, and add small details such as tendon grooves, wrinkles, etc.

\$14.75

### CS03b—Round Chisel

Hollow out ears, nostrils, and hoof bottoms by hand with more control than high-speed rotary tools. Particularly effective for small scales.

\$14.75

### CS04—Angled Round

Straight-edged blade tapering down in thickness at the tip to get into tight, narrow areas.

\$14.75

### CS05—Knife

This shape has a variety of uses, most notably for getting to areas nothing else will. Pointy tip with one side rounded.

\$17.50

### CS06—Sharp Tapered

Straight edges can be used across seams. The corners at the tip are very effective for texturing, etched roaning work on paint jobs, and inscribing.

\$14.75

Unlike hobby blades, solid carbide does not flex, which means there is little to no "chatter" as you draw them across the material.

Precision ground from micrograin carbide rod, these are specifically designed with the artist in mind.

- ♦ Whisk off seam lines in a fraction of the time it takes with sandpaper or files
- ♦ Superior fine control for detailing compared to dremel burs or hobby knives
- ♦ No more knife cuts!
- ♦ Carve in fine details along seam lines instead of just sanding them off
- ♦ Hollow out and carve ears, nostrils and hooves effectively
- ♦ Etch fine hairlines on surfaces
- ♦ Designed for years of use

## Carbide Scraper Set

6 tips & 1 handle

This set of one handle and 6 interchangeable tips with a handy storage case will help you will make all your prepping jobs easier!

### Notes on Glues:

Interestingly enough, not all super-glues work on our Etched Metal plates. We have had good luck overall with "Kiss" brand Nail Glue (easily found wherever fingernail polish and decorative items are sold), as well as "Loctite", "Duro" and "Devcon" brands. Another favorite in the shop is "Aleene's Jewelry and Metal Glue" which is a super-glue gel.

If you find you have a super-glue that doesn't want to stick or hold, simply try another brand until you find one that does.

Super-Glue creates a fairly permanent bond, and it is possible to damage the parts or the leather if you try to remove them later.

Alternatively you can use E6000 Glue, for a semi-permanent bond that may be easier to remove later if you wish. This glue may not hold quite as well, so be careful handling your tack to avoid having the decorations come off.

# ARABIAN HORSE JEWELRY

[www.riorondo.com/hardware/arab.html](http://www.riorondo.com/hardware/arab.html)

Tiny little coins, sharks teeth, charms and so much more to create Arabian, Dancing Horse, Akhal Teke, Marwari, Turkoman and other regional tack styles, or just make delightful "horse jewelry" items for your models of any type you wish! These are perfect for adding crystals or coloring for extra bling.

You may need to craft your own jump rings or get our tiny JR23 rings for attachment. A bead-reamer or stick pin mounted in a pin vise can help to enlarge holes as needed. Use cutters to easily "nip off" any extra loops you don't need. Quantity Pricing available.

### Setting Up A Tongue Buckle

Add tongues to buckles before you cut them off the frame...the frame gives you more to hang on to for assembly.

The buckle is now ready to attach to a strap.

## Buckle Tongues

Our buckle tongues are best suited for larger-sized buckles such as 1/8 and 3/16. They may be too wide for smaller sizes. Beading wire can work to craft your own tongues.

## ETCHED METAL CONCHOS

\$4.00/sheet

Items shown at 150% of actual size to show detail

Conchos are available in 9 different decorative styles to match many of our other items. Each sheet features the same concho design in 3 different sizes. Between the large and small sheets for each design, there are 6 graduated sizes you can use for all kinds of projects.

Add them to bridles, breastcollars, saddles and doll clothing items. Stack them on bits and other plates to make new and unique combinations. They can also be domed, colorized, and have crystals added to them

**CS—Small Concho sheets**

# LEATHER WORKING

[www.riorondo.com/supplies/dyes.html](http://www.riorondo.com/supplies/dyes.html)

## LEATHER DYES & FINISH

We now offer Tandy's Eco-Flo water-based dye colors for your leather projects. These dyes are suitable for tooling leather (vegetable-tanned) and will produce good quality colors. The dye colors can be mixed or thinned to create custom shades and tints.

We recommend application with a piece of cloth (such as old t-shirt material, and rubbing the color in a circular motion, making sure that no pigment residue remains on the surface. Two or three coats can be applied to darken or intensify the color as desired.

Once the leather has dried, apply one or two coats of your choice of leather finishes to help protect the surface.

\$10.50—4.4 oz.bottle

## Leather Finishes

Apply a protective finish coating to prevent dirt smudges and seal dye colors.

*Leather is a natural product*, so it is important to know that all leathers will feature a certain amount of inconsistency, due to the uniqueness of the animal the leather came from. Scars, wrinkles and other small surface imperfections, as well as variations in thickness and texture, are all natural aspects of leather. Tooling leather in particular is subject to a certain amount of surface inconsistencies, although most can be tooled over, and dyed with no problem

In regard to leather lace, splices may be found here and there and are standard in the manufacturing procedure. (There are no cows that we know of that are 25 yards long.)

Leather stamps are used to leave an impression on tooling leather to help form larger patterns and designs. Our selection features small Craftool stamps that work well for miniature carving projects. Use with a wooden or rawhide mallet to avoid damaging the tools.

Stamps shown at approximately 125% of actual size.

### Tooling Film

Tooling film is a near-transparent plastic film which easily accepts an impression. Trace a pattern in pencil onto this film, then place the film over damp leather. Using a stylus tip, you can easily impress the pattern into the leather, to use as a guide for carving.

# LEATHERS

www.riorondo.com/leather/

It is difficult to describe the precise differences in looks, touch, feel, suppleness and so forth in mere text. The best way to assess various leathers is to try them out. Even among the same type of leather, there can be variations which lend themselves better for some projects than others.

We select our leathers specifically for their suitability for use for miniatures, and specialize in providing them to you in small pieces that are suitable for small projects. To see color samples, please check our website at: <http://www.riorondo.com/leather/>.

## LEATHER LACE

Leather Lace is a "must have" item for every tackmaker. Bridles, halters, straps and more are easily crafted from lace. All of our flat lace is currently made from kangaroo; round lace may vary. Natural colored lace can be dyed, although results will vary. Flat lace avg. .9mm or 1/32" thick. Wider laces tend to be a little thicker. **All Lace is Sold by the yard (or .91 meter).**

\*some beads may require an awl to open up the holes a little to fit on the lace. Please note also that the diameter will vary, and this product, like many other leathers, is not always consistent.

Round lace is ideal for reins, bridles and special projects. Most beads will fit the .5mm lace, while the larger size beads will fit the 1mm lace.

Quantity Pricing available for 5 yards or more of the same lace.

## TOOLING LEATHERS

Vegetable-Tanned tooling leathers are the proper choice for items such as western saddles, breastcollars and similar items. Tooling leather is designed to be carved, tooled and stamped. Comes in natural (beige) color, suitable for dyeing to your desired color.

Since leather is a natural product, there will be some variance in the top (grain) surface in terms of color, grain and texture, with occasional small scar marks.

### Tooling Cow

This is the leather we use in our Saddle Kits. Firm-bodied and approx. 1/16" or 1-1.2mm thick, Tooling Cow has a moderately crisp feel to the surface, and holds clean impressions. 8.5x5.5" piece.

L12 -Cow 8.5x5.5" \$12.00  
L14 -Cow seconds \$5.75

### Tooling Calf

Tooling calf runs .9-1.1mm with a soft, buttery hand, fine surface grain and some "drape". May include some surface imperfections.

LCT8 -Calf 8.5x5.5" \$8.00  
LT13 -Calf seconds \$4.50

Blemished pieces or "seconds" have some imperfections, yet are generally still suitable for tooling, and projects where you can work around or avoid the lesser area.

### Euro-Veg Tooling Cow

Euro-Veg leather is slightly thinner (.9-1.1mm) than tooling cow, and has a somewhat softer feel than standard Tooling Cow.

LVT18-Euro-Veg 8.5x5.5" \$9.75  
LVT21-Euro-Veg seconds \$5.00

### Fine Tooling Goat

Very thin .6mm veg-tan leather that is firm-bodied with a tight surface grain and crisp hand. This leather is suitable for projects where our other tooling leathers may be too bulky. Tooling Goat generally does include some surface color variance.

GTF7-Fine Tooling Goat 8.5x5.5" \$5.00

## SHEEPSKIN SKIVER

Thin soft, supple veg-tanned sheepskin skiver is ideal for covering saddle shoulders, linings for cinches/breastcollars, and crafting accessories such as boots. Also suitable for very small scale items. Natural-colored skiver can be dyed and can be stamped or carved. Sold in 5x6" and 10x6" pieces. Approx. .75mm thick,

LK2n-Skiver 5x6" - \$4.25 ea. LK4n-Skiver 10x6" - \$9.50 ea.

## CHAMOIS

Ultra-soft buff-colored chamois leather is ideal for simulating sheepskin lining on saddles as well as for use on costumes and trim on doll clothing.

LCH2 -5x6" - \$3.50ea. LCH4-6x10" - \$7.00ea.

## SUEDE COLORS

Luxurious pigskin or goatskin suedes are the choice for seats on western saddles, and decorative trim for color-coordinating tack items with inlays or overlays. Great for costumes, doll clothing and accessories. Color selection will vary. Approx .7mm thick.

LS2(color)-5x6"- \$3.25/ea. LS4(color)-6x10"- \$6.50/ea.  
LS3(color)-2x2.25"- \$ .50/ea.

# Notes

- ◇ Small Needle-Nose Pliers with cutters
- ◇ Sharp Scissors
- ◇ Hobby Knife and Blades
- ◇ Small "00" size hole punch (or small brad and a mallet)
- ◇ Awl (for making and enlarging holes)
- ◇ Nail Polish Remover (removes glue from fingers and tools)
- ◇ Small Paintbrush or Dauber for leather dye

## TOOLBOX

There are a number of items and supplies you will need that are not provided in our kits. (Each kit includes a list of additional tools and items you will need.)

While you probably won't need or use all of the items for every project, this represents a good selection of items to keep handy on your workbench.

- ◇ Glue Tips
- ◇ Black or Dark Brown paint pen marker
- ◇ 220 Grit Sandpaper
- ◇ Leather Dye, Finish & Solvent (rubbing alcohol can be substituted for dye solvent in most cases—read all label directions for further information on these items.)

## Common Sense & Safety First

Many of the tools, supplies and substances used to create miniatures are potentially hazardous if used in a careless manner! Our kits are recommended for persons age 12 or above, but we also highly recommend that any young person assembling our kits or creating any miniature items be supervised and/or assisted by an adult. Safety First!
